KAI India's CAN Face Razor

Chennai, May 16:

KAI, a renowned Japanese manufacturer of premium razors and beauty tools, brings CAN Face Razor, the most comfortable way of facial hair removal. This revolutionary product is designed to give women a painless and effortless way to achieve smooth, flawless, and radiant facial skin, free from unwanted hair.

The CAN Face Razor is easy to use, glides smoothly on the face, and leaves the skin feeling softer, brighter, and hair-free. With its specially designed blade using PTFE Technology, the razor requires less force while shaving, and the Chromium Coating keeps the blades rust-resistant, durable, and sharp for an extended period. The double-coated stainless steel blade, with protective skin guards, makes shaving safe and avoid any cuts or skin abrasions. The anti-slip plastic handle ensures a perfect grip, providing smooth and precise shaving. The protective blade cap makes it travel-friendly and protects the blades from dust.

Rajesh U. Pandya, Managing Director, KAI India, said, "The CAN Face razors are safe, suitable for all skin types, and remove even the tiniest of hair with precision. After using the CAN Face Razor, your skin will be smoother, making it the perfect canvas for better application of skincare products and makeup. Shaving all facial areas will become a lot easier in just a few minutes."

8 essential tips for summer nail care

New Delhi, May 5 (IANSlife) As the summer season approaches, it's important to take extra care of your nails, which can get dry, brittle and prone to breakage due to heat and humidity.

Rajesh U. Pandya, Managing Director, of KAI India, gives some advice on how to take care of nails in summer:

* **Hydrate, hydrate, hydrate:** Staying hydrated is key to keeping your nails healthy and strong. Drink plenty of water and include hydrating foods in your diet, such as cucumbers, watermelon, and strawberries. You can also apply a moisturising hand cream or nail oil to your nails and cuticles to keep them hydrated.

* **Wear gloves:** When doing household chores like washing dishes or gardening, wear gloves to protect your nails from harsh chemicals and dirt. This will also help to prevent your nails from getting brittle and breaking.

* **Avoid overexposure to the sun:** While it's important to get some sun exposure to maintain healthy levels of vitamin D, overexposure can be harmful to your nails. Too much sun can cause your nails to dry out, become discoloured, or even crack. Use a broad-spectrum sunscreen on your hands and nails whenever you're outside for extended periods of time.

* **Don't forget to exfoliate:** Just like your skin, your nails and cuticles can benefit from exfoliation. Use a gentle nail brush or an exfoliating scrub to remove dead skin cells and stimulate blood flow to your nails. This will also help to prevent ingrown nails and keep your cuticles looking healthy.

* **Keep your nails short:** Long nails may look glamorous, but they can be more prone to breakage and damage in the summer months. Keep your nails short and well-groomed to prevent them from snagging or breaking. This will also make it easier to maintain good nail hygiene.

* **Take a break from nail polish:** While it's fun to wear nail polish, it's important to give your nails a break from time to time. Constantly wearing nail polish can weaken your nails and make them more prone to breakage. Give your nails a chance to breathe for a few days after regular intervals.

By following these tips, you can keep your nails looking and feeling healthy all summer long. Remember to stay hydrated, protect your nails from the sun and chemicals, and choose safe nail products. With a little bit of care and attention, you can have strong and beautiful nails all year round.

Product Review: KAI India के इन रेजर से नहीं होगी आपकी स्किन खराब

इन रेजर्स के लिए रेजर तब तक अपनी इच्छाओं के साथ नहीं लगे हैं। आपको लगता है कि आपका रेजर तब तक नहीं लगेगा जब तक कि आप इसे नहीं बदलेंगे।

खरीद के कुछ दिनों पर बाल देखने में बिल्कुल भी अच्छे नहीं लगते हैं। इनमें फेशियल हेयर, हाथ और बिकिनी छटिया हैं। इन जगहों पर मौजूद बालों को टिप्पू करना भी जरूरी होता है। इसके लिए वैक्सिंग होती है, लेकिन कई बार समय की कमी होने के कारण महिलाएं रेजर का इस्तेमाल करती हैं।

रेजर से हेयर टिप्पू करना काफी आसान होता है, लेकिन इसके कारण स्किन को कई तरह के नुकसान भी होते हैं। मैंने हाल ही में KAI India का रेजर का उपयोग किया। कई इंडिया के खूबी-बुराई के साथ ग्लोइंग स्किन पाना आसान है। जापान के जाले-जाले रेजर एवं खूबी टूलस ब्रान्ड कई को ऐसी जापानी तकनीकों के लिए जाना जाता है जो हेयर टिप्पू को बेहद आसान और दर्द रहित बना देते हैं। रफ-रेजिस्टेंट फेशियल रेजर से लेकर इंटीमेट छटिया के लिए जेंटल ब्लेड्स तक, इनके पोर्टफोलियो में ऐसे कई प्रोडक्ट शामिल हैं।

यह रेजर किस तरह काम करता है। साथ ही इससे होने वाले फायदे और नुकसान के बारे में जानने के लिए आपको मेरा यह प्रोडक्ट रिव्यू पढ़ना चाहिए।

दावा

- अक्सर यह समझा जाती है कि ट्रेजर के बाद स्किन रुखी हो जाती है, लेकिन इस ट्रेजर से हेयर रिमूव करने के बाद आपकी स्किन ड्राई नहीं होगी।
- इस फेशियल ट्रेजर से छोटे-छोटे बाल भी आसानी से हट जाते हैं। इसका उपयोग करने से पहले मॉइस्टराइजर का उपयोग जरूर करें।
- यह विकिनी ट्रेजर आपके सेंसिटिव विकिनी एरिया के लिए परफेक्ट है। कार्ड का यह ट्रिगर ट्रेजर कॉम्पैक्ट हेड के साथ आता है, जिससे आप आसानी से हेयर रिमूव कर सकती हैं।

पैकेजिंग

काई इंडिया के हेयर रिमूव ब्यूटी बॉक्स में थ्री-इन-वन फेशियल ट्रेजर, विकिनी लाईन ट्रेजर और के-4 सॉफ्ट ट्रेजर शामिल हैं। ये तीनों ट्रेजर आपको एक बॉक्स में पैक मिलेंगे। इस बॉक्स पर प्रोडक्ट से संबंधित जरूरी जानकारी लिखी है।

कीमत

इस ट्रेजर की कीमत 315 है। ऑनलाइन खरीदने पर इसका दाम कम भी हो सकता है। (ट्रेजर

फायदे

- अक्सर ट्रेजर का उपयोग करने के बाद स्किन ड्राई हो जाती है, लेकिन KAI India के इस ट्रेजर का इस्तेमाल करने से ऐसा नहीं होगा।
- इसमें एलो एनटिचैड ल्यूब रिटर्न है, जो विकिनी हेयर को आसानी से रिमूव करने में मदद करते हैं। (फेशियल ट्रेजर के साथ)
- इस ट्रेजर का इस्तेमाल आपको बार-बार नहीं करना पड़ेगा, क्योंकि एक ही ग्लाइड में इससे आसानी से बाल हट जाते हैं।

नुकसान

मुझे इस ट्रेजर से किसी प्रकार का कोई नुकसान महसूस नहीं हुआ, लेकिन अगर आपकी स्किन सेंसिटिव है तो आपको ट्रेजर के इस्तेमाल से बचना चाहिए। इसके बजाय वैक्सिंग करवाएं।

इन बातों का रखें ध्यान

- अगर ट्रेजर के इस्तेमाल के बाद आपको इरिटेशन महसूस हो तो आपको इसका उपयोग नहीं करना चाहिए।
- शेविंग करने से पहले लोशन, क्रीम और अच्छे साबुन का इस्तेमाल करें। ऐसा करने से स्किन को नुकसान नहीं होता है।
- ट्रेजर का इस्तेमाल करने के बाद इसे सुखा लें। कैप लगाएं और इसे ड्राई एरिया में स्टोर करें।
- आपको इस ट्रेजर को 70 सेल्सियस के तापमान वाले पानी में नहीं रखना चाहिए।
- इस ट्रेजर को बच्चों की पहुंच से दूर रखें। साथ ही इसे ड्राई जगह पर स्टोर करके रखें।

Why is shaving better than waxing

When it comes to hair removal, there are many options available, but two of the most popular methods are shaving and waxing. While both methods have their pros and cons, shaving has several advantages over waxing that make it a better choice for many people.

Firstly, shaving is a much quicker and easier process than waxing. Shaving can be done quickly in the shower or bath, whereas waxing requires a bit more preparation time and can take much longer to complete. Shaving can also be done more frequently, since it is less harsh on the skin and doesn't require the same amount of regrowth as waxing. This means that you can maintain a smooth, clean look without having to wait for weeks between sessions.

Another advantage of shaving is that it is much less painful than waxing. Waxing involves pulling hair out at the root, which can be very uncomfortable and even painful, especially in sensitive areas like the bikini line or underarms. Shaving, on the other hand, is a painless process that simply cuts the hair at the surface of the skin. While there is always a risk of nicks or cuts when shaving, this can be minimized with a good razor and proper technique.

Shaving is also more affordable than waxing. While the initial cost of a good razor and shaving cream may be slightly more than a waxing session, these items can be used multiple times and will last much longer than a single waxing session. Over time, the cost of shaving is significantly lower than the cost of regular waxing.

Finally, shaving is a more versatile option than waxing. Waxing requires a certain amount of hair growth in order to be effective, which means that you may have to let your hair grow out for several weeks before each waxing session. This can be inconvenient and annoying for many people. Shaving, on the other hand, can be done as frequently as you like, and is effective on both long and short hair.

In conclusion, while waxing may have some benefits, shaving is a better choice for many people. It is quicker, easier, less painful, more affordable, and more versatile than waxing. Whether you're looking to maintain a smooth, hair-free look or simply want a quick and easy hair removal method, shaving is definitely worth considering.

Summer Care: 6 Effective Tips For Nail Care During Hot And Humid Season

It's crucial to take additional care of your nails as summer approaches since heat and humidity can cause them to become dry, brittle, and prone to breakage.

Summer is here – The sun is shining, the temperature is rising, and beach trips are already long booked. But did you know that spending too much time in the sun can damage your manicure and pedicure? UV radiation and chlorinated water can damage even healthy nails. You must maintain normal treatment and upkeep if you want strong nails throughout the summer. The managing director of KAI India, Rajesh U. Pandya, offers some tips on how to care for nails in the summer.

6 EFFECTIVE TIPS FOR NAIL CARE IN SUMMER

- 1 **Stay Hydrated:** Staying hydrated is key to keeping your nails healthy and strong. Drink plenty of water and include hydrating foods in your diet, such as cucumbers, watermelon, and strawberries. You can also apply a moisturising hand cream or nail oil to your nails and cuticles to keep them hydrated.
- 2 **Wear Gloves:** When doing household chores like washing dishes or gardening, wear gloves to protect your nails from harsh chemicals and dirt. This will also help to prevent your nails from getting brittle and breaking.
- 3 **Avoid Overexposure to The Sun:** While it's important to get some sun exposure to maintain healthy levels of vitamin D, overexposure can be harmful to your nails. Too much sun can cause your nails to dry out, become discoloured, or even crack. Use broad-spectrum sunscreen on your hands and nails whenever you're outside for extended periods of time.
- 4 **Don't Forget to Exfoliate:** Just like your skin, your nails and cuticles can benefit from exfoliation. Use a gentle nail brush or an exfoliating scrub to remove dead skin cells and stimulate blood flow to your nails. This will also help to prevent ingrown nails and keep your cuticles looking healthy.
- 5 **Keep Your Nails Short:** Long nails may look glamorous, but they can be more prone to breakage and damage in the summer months. Keep your nails short and well-groomed to prevent them from snagging or breaking. This will also make it easier to maintain good nail hygiene.
- 6 **Take a Break From Nail Polish:** While it's fun to wear nail polish, it's important to give your nails a break from time to time. Constantly wearing nail polish can weaken your nails and make them more prone to breakage. Give your nails a chance to breathe for a few days after regular intervals.

By following these tips, you can keep your nails looking and feeling healthy all summer long.
