

KAI GROUP

The Kai Group was founded in Seki City, Gifu Prefecture, which has a history of over 800 years as the home of forging blades. While passing down the skill and spirit which continue to flow in this land, we are aiming to expand our product lines focussing on blades as well as related items.

The KAI Group was established in 1908 by Saijiro Endo in Seki City, Gifu Prefecture, Japan and is responsible for manufacturing products with high end quality and reliable technology. The company is also delivering top quality products to a large number of customers through the expansion of its network in the regions of North America, Europe and Asia.

Nowhere else in the world can you find a cutlery-related manufacturer which has developed close to 10,000 products in the cooking, grooming, beauty care, and medical fields. The KAI group is currently accelerating its business development overseas.

KAI INDIA

The 100+ years old Japan-based KAI Group has made a foray into the Indian market with the establishment of its manufacturing facility spanned over 30,000sqft area in Neemrana, Rajasthan. Kai brings over 800 years old Japanese legacy of forging blades directly to kitchen of Indian household with its kitchenware range. Kai also offers highly precisioned beauty and personal care products to the Indian consumers adding great value to their daily life.

Kai as an organisation is determined to provide products prepared with detailed R&D and superior Japanese technology. With its clear vision and mission, Kai is marching forward towards becoming a household name in India.
